

### **TURKISH IZMIR TOBACCO**

Turkish tobacco is renowned for its unique flavour. This plant grows shorter and has smaller leaves than other strains, but has a distinctive aroma and smell.

### **VIRGINIA GOLD #1**

The finest and most popular strain of tobacco. A must for cigarette making. This plant grows fast and is also high yielding plant giving a very mild flavour.

### **VIRGINIA GOLD #2**

This wonderful F1 variety, said to be the most popular flue-type cured tobacco grown in the USA. Leaves turn a bright yellow/orange as they cure. Now available in pelleted form.

### **VIRGINIA GOLD #3**

Another fine F1 variety, which matures much sooner than #1 & #2, useful if you have a short growing season or starting late.

### **NEW PELLETTED SEEDS**

These are coated seeds that have a high germination rate and which can be planted directly into individual pots. Much easier to handle than raw seeds. We have 3 types:-

### **VIRGINIAN GOLD # 2**

A fine and very popular tobaccos . It turns a bright yellow to yellowy red when cured and is essential for cigarette making.

### **TENNESSEE BURLEY &**

One of the most popular

commercial strains of Burley tobacco originating in Tennessee. It is used for its hardiness and smooth, rich flavour. Good for cigarette making and mild cigars. This variety grows fast and is a high yielding plant.

### **TURKISH BASMA™ PELLETTED TOBACCO SEEDS**

The Basma variety has small sized leaves being broader of their upper half. Their texture is moderately thick, elastic and soft. Their leaf colour is light yellow to yellow and light red. It is mild, sweet and aromatic tobacco, that is familiar to any smoker.

**"GROW ON. YOU KNOW IT MAKES SENSE"**

### **ARGENTINEAN TOBACCO**

A vigorous plant with an unusual flavour making it a good candidate for blending. A very attractive plant with sweet smelling flowers.

### **BARNETT SPECIAL**

A fine commercial Burley strain that is used by the big American tobacco producers. Especially good for cigarettes, but also used in blending pipe and cigar tobacco.

### **BLACK MAMMOTH**

A deep dark tobacco that gives good weight and supports itself very well. It is prized by growers because it provides a great wrapper or a premium snuff tobacco when ripe.

### **BLACK SEA SAMSUN**

One of Turkey's most popular tobacco varieties, renowned for its unique rich flavour. They are shorter in height and their leaves smaller than other varieties.

### **BURLEY ORIGINAL**

An original and popular commercial strain of tobacco. It is used for its hardiness and smooth, rich flavour. Good for cigarette and cigar making.

### **BURLEY HAMPTON**

A fine commercial Burley strain, renowned for its smooth flavour. Suitable for cigarette, pipe and cigar blending.

### **BURLEY VARIATION**

A variation on the common Burley, this variety is bigger than its cousin. A fine high yielding strain that is used for its hardiness and smooth flavour.

### **CONNECTICUT BROADLEAF**

Another favourite and popular dark Burley tobacco. It is used for its hardiness and rich, stronger flavour. Good for cigarette making, pipes and cigars. This plant has broader than usual leaves.

### **CRILLO 98**

Popular Cuban cigar variety for home growers. Will grow only 3-4 ft. tall. Cured leaves are light brown in colour, have a silky texture making it a good covering for cigars. Also has a pleasant, mild aroma and taste.

### **HABANA 2000**

One of the most popular Cuban cigar varieties for home growers. Can grow up to 6-7 ft. tall. Cured leaves have a reddish to light brown colour. Cured leaves have a silky texture like long rye that makes a good covering for cigars. Can also be used in pipes.

### **DARK VIRGINIA TOBACCO**

A popular dark Burley tobacco. It is used for its hardiness and smooth flavour. Good for cigarette making, pipes and cigars.

### **DEL GOLD**

An original and popular commercial strain of tobacco. Developed by crossing wild tobacco with two popular American varieties, Hicks Broadleaf and Virginia. The result is a high-yielding, high-nicotine cultivar.

### **GLAUCIA BLUE TREE TOBACCO**

A graceful tobacco which can grow very tall, thus the name tree. Also makes a lovely garden specimen. Highly valued for chewing and smoking. It is said to have very small quantities of nicotine.

### **GOLDEN SEAL SPECIAL**

One of the best of the Burley lighter tobaccos. Easy to grow and much preferred by smokers. This tall plants leaves turns yellow as they dry. Ideal for cigarettes.

### **GOOSE CREEK RED**

This darker tobacco turns to red as it dries and has a silky feel, making it ideal as a wrapper for cigars.

### **GREENWOOD**

A tobacco with a longer, more slender, thin, narrow leaf. This variety is great for chewing and for pipes and can also be used as cigar wrappers.

### **ISLETA PUEBLO TOBACCO**

From the pueblo south of Albuquerque. Plants grow to 4 1/2 feet. Good blending tobacco for pipes, cigars, and chewing.

### **LITTLE CRITTENDEN**

Another long, slender, thin and narrow leafed tobacco used for chewing, pipe and sometimes cigars. A fine tobacco for the novice.

### **LIZARD TAIL ORINOCO**

A tall tobacco with thick textured, crinkly leaves that produces a rich brown pipe tobacco. It is a favourite of pipe smokers but also makes a good

blending tobacco for cigars and cigarettes.

### **LIZARD TAIL TURTLE**

Another tall, thick textured tobacco with leaves that produces a rich brown tobacco.

### **MARYLAND**

Maryland strains produce a light tobacco, usually air-cured and used in cigarettes. It has crepe-like (not smooth) surface with a slightly crinkled margin which dries to a tan / light cherry red colour.

### **MONTE CALME YELLOW**

A favourite European variety that features wide, thin leaves that are much preferred for cigarettes and as cigar wrappers. Grows to about 6 ft. tall, producing a large crop. It has a mild flavour.

### **NARROW LEAF MADOLE**

Another longer, more slender, thin, narrow leaf tobacco. It is a fine commercial variety that is fast growing and hardy. Recommended for cigar making and pipes.

### **PERIQUE TOBACCO**

A rare and famous Louisiana tobacco known for its dark, black colour and unique flavour. This tobacco was originally cured by stuffing it into hollow logs until fermented.

### **SHIREY**

A dark tobacco variation that is preferred for its hardiness and rich flavour. A fine tobacco for the cigar and pipe.

### **STAG HORN**

Another great favourite and popular dark tobacco. It is used for its hardiness and rich, stronger flavour. Good for cigarettes, pipes and cigars. This plant has long, thick, narrow leaves.
